INDEPENDENT AUDITORS' REPORT

Honorable Mayor and City Council
City of Boaz
Boaz, Alabama

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Boaz, Alabama, as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Boaz City Board of Education, which represents total assets of \$32,834,078 as of September 30, 2015, and total revenues of \$22,125,333 for the year then ended. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Boaz City Board of Education, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

City of Boaz
Boaz, Alabama

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Boaz, Alabama as of September 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 17 to the financial statements, in 2015 the City adopted a new accounting guidance, GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. The City has adjusted its statements to retroactively apply the change in accounting for the implementation of GASB 68. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of funding progress – Employees' Retirement System of Alabama, the schedule of funding progress – retiree health plan, and the budgetary comparison information on pages i through ix, page 47, page 48, and pages 49 through 50, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the method of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Boaz, Alabama's basic financial statements. The accompanying schedule of Debt Service Requirements to Maturity is presented for purposes of additional analysis and is not a required part of the basic financial statements.

City of Boaz
Boaz, Alabama

The schedule of Debt Service Requirements to Maturity is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the report of the other auditors, the schedule of Debt Service Requirements to Maturity is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Governmental Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated August 1, 2016, on our consideration of the City of Boaz, Alabama’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Boaz, Alabama’s internal control over financial reporting and compliance.

CITY OF BOAZ, ALABAMA MANAGEMENT'S DISCUSSION AND ANALYSIS

The City of Boaz's discussion and analysis is designed to (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the City's financial activity, (c) identify changes in the City's financial position (its ability to address the next and subsequent year challenges), (d) identify any material deviations from the financial plan (the approved budget), and (e) identify individual fund issues or concerns.

We offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2015. We encourage readers to consider the information presented here in conjunction with the City's financial statements, which follow this section.

Financial Highlights

- The City's governmental net position increased \$1,318,549 in 2015 as a result of decreased expenditures.
- As of September 30, 2015, the City's governmental funds reported a combined ending fund balance of \$2,623,906, an increase of \$768,496 from the prior year.
- The City's total long-term debt had a net increase of \$2,015,021 during 2015, due to a combination of maturing debt and the addition of the Net Pension Liability in accordance with GASB 68.
- The City's total governmental capital assets decreased by \$260,079 over the prior year due to depreciation expense of the capital assets.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to financial statements. This report also contains other supplementary information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS – The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to private-sector business.

The *statement of net position* presents information on all of the City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating, respectively.

The *statement of activities* presents information showing how the government's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of cash flows. Thus, revenue and expenses reported in this statement for some items will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused annual leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees or charges (business-type activities). The governmental activities of the City include general government, public safety related departments, public service departments, recreational activities, and intergovernmental functions. The intergovernmental functions of the City are those in which the City provides financial resources to other governmental entities, primarily the Boaz City Board of Education for support of the City school system. The business-type activities of the City include leasing activities of the City at the Boaz Outlet Center.

As described in the notes to the financial statements, the Boaz City School Board's financial statements are included in this report because of the relationship of this legally separate entity to the City. The complete financial statements (including MD&A) of the Boaz City Board of Education may be obtained from the Boaz City Board of Education.

Other component units which normally may be included as part of the City's financial reporting entity include the Industrial Development Board, Library Board, Zoning Board of Adjustments, and Planning Commission. However, they are not included because they have insignificant or no assets and fund balances.

This discussion and analysis focuses on the primary government.

The government-wide financial statements can be found on pages 5 through 7 of this report.

FUND FINANCIAL STATEMENTS – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the City are considered governmental funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on the near term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the reader may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains 14 individual governmental funds:

- The General fund, Corrections Fund, and the Combined Debt Service fund are considered to be *major funds*. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for these funds.
- The 11 other governmental funds are considered to be *nonmajor governmental funds* and they are combined into a single, aggregated presentation in the basic financial statements.

The basic governmental fund financial statements can be found on pages 8 and 10 of this report.

Proprietary funds (or *enterprise funds*) are used to account for activities where the emphasis is placed on net income determination. Proprietary funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses proprietary funds to account for its ownership and leasing of the Boaz Outlet Center.

The proprietary fund, which is considered to be a major fund of the City, is reported separately as proprietary fund financial statements in the basic financial statements. The proprietary fund financial statements can be found on pages 12 through 15 in the basic financial statements.

NOTES TO FINANCIAL STATEMENTS - The notes to financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to financial statements can be found on pages 16 through 45 of this report.

REQUIRED SUPPLEMENTARY INFORMATION – In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information. Because the City adopts an annual operating budget for its general fund, a comparison of budget to actual results is provided for this fund to demonstrate compliance with the budget. Also, required schedules of funding progress for the Employees' Retirement System of Alabama and the Retiree Health Plan are presented.

OTHER INFORMATION – A schedule of Debt Service Requirements to Maturity is presented here.

Government-wide Financial Analysis

As noted earlier, net position may serve as a useful indicator of a government's financial position. Overall, the City's assets exceeded liabilities by \$7,549,066 at the close of the most recent fiscal year.

The largest portion of the City's net position reflects its investment in capital assets (e.g. land, buildings, improvements other than buildings, machinery and equipment, vehicles, infrastructure, and construction in progress) less any related outstanding debt used to acquire those assets. The City uses these capital assets to provide services to citizens; therefore, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the City's net position represents resources that are subject to restrictions as to how they may be used. Such restrictions are imposed by legal requirements or sources other than those imposed by the City Council (e.g. state or federal law).

The remaining balance of the City's net position is unrestricted. Unrestricted net position represent the fact that non-capital assets of the City exceed the unrestricted debt and are available to fund governmental activities as deemed necessary by the City Council.

Revenues from governmental activities increased during 2015 by \$244,803. The most significant changes were as follows:

Revenue from taxes increased \$352,440. All other revenues of the City decreased approximately \$107,000 from the prior year.

Expenses of governmental activities decreased approximately \$257,219 from 2014. Overtime salaries and liability insurance decreased from the prior year.

Financial Analysis of the Governmental Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, the unreserved fund balances may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The combined fund balances of the City's governmental funds increased to \$2,623,906 at September 30, 2015, an increase of \$768,496 over the prior fiscal year. Of this amount, \$971,413 constitutes the unassigned fund balance, which is generally available for spending at the City's discretion, although it is subject to certain limitation inherent in the funds where the balances are retained. The remainder of the total fund balance, or \$1,652,493, is reserved to indicate that it is not available for new spending because it has already been committed to liquidate contracts and purchase orders, pay debt service, or has generally been committed for other purposes.

The increase in the combined fund balance of the City's governmental funds was mostly attributable to the changes in the individual funds as follows:

- The fund balance for the General Fund increased \$692,268. Sales and ad valorem taxes increased \$371,945. General Government and Administrative departments' expenses were \$231,857 less than prior year.
- Combined Debt Service Fund decreased \$6,470 due to normal debt service.

Governmental Funds Budgetary Highlights

General Fund – There was no difference between the original and final General Fund budgets.

- Intergovernmental revenues were \$416,107 higher than projected amounts due to ATRIP grants.
- Expenditures in the General Government and Administration were over budget \$689,127 due to paving expenditures and ATRIP grant expenses.
- Expenditures for the fire department exceeded the budgeted amount due to employee insurance expenses.
- Street department expenses exceeded the budget an increase in street repairs expenses.
- Library expenses exceeded the budget as a result of building maintenance.
- Sales and use tax revenues exceeded budgeted amounts by \$473,832 due to improving economic conditions.

Capital Assets and Debt Administration

CAPITAL ASSETS – The City’s investment in capital assets for governmental activities and enterprise activities as of September 30, 2015, totaled \$16,896,893 net of accumulated depreciation. This investment in capital assets includes land, buildings, improvements other than buildings, machinery and equipment, infrastructure, vehicles, and construction in progress. Net capital assets decreased approximately \$260,079 in 2015.

City of Boaz's Net Capital Assets

	Governmental Funds	Proprietary Funds
	<u> </u>	<u> </u>

	<u>\$ 14,230,554</u>	<u>\$ 2,666,339</u>

LONG-TERM DEBT – As of September 30, 2015, the City had \$12,121,756 of long-term debt outstanding. Of this amount, \$6,849,351 is general obligation warrants backed by the full faith and credit of the City, \$2,853,114 is the Net Pension Liability, and \$2,189,290 is comprised of a note payable for the Boaz Outlet Center.

The City’s general obligation bond rating by Standard and Poor’s is A+.

There was no new debt incurred by the City during the year ended September 30, 2015.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

Amounts reported for governmental activities in the Statement of Net Position (pages 5 and 6)
are different because:

Total Fund Balances - Governmental Funds	\$	2,623,906
Capital assets used in governmental activities are not financial resources and, therefore, not reported in the funds.		14,230,554
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.		497,000
Refundings on bonds that are deferred and amortized in the Statement of Net Position are expensed when issued and, therefore, not reported in the funds.		139,323
Pension related deferrals are deferred outflows of resources on the statement of net position.		325,057
Contributions to the pension plan in the current fiscal year are deferred inflows of resources on the statement of net position.		(317,412)
Long-term liabilities, including bonds payable, the related accrued interest payable, and the net pension liability are not due and payable in the current period and, therefore, not reported in the funds.		<u>(9,949,362)</u>
NET POSITION OF GOVERNMENTAL ACTIVITIES	\$	<u><u>7,549,066</u></u>

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND
 CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT
 OF ACTIVITIES

CITY OF BOAZ, ALABAMA

FOR THE YEAR ENDED SEPTEMBER 30, 2015

Amounts reported for governmental activities in the Statement of Activities
 (page 7) are different because:

Net Change in fund balances - total governmental funds (page 10)	\$	768,496
--	----	---------

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.	(447,178)
--	-----------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(10,000)
--	----------

Contributions to the pension plan in the current fiscal year are not included in the statement of activities.	325,057
---	---------

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	776,849
---	---------

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	<u>(328,338)</u>
---	------------------

Change in Net Position - Governmental Activities	<u>\$</u>	<u>1,084,886</u>

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The City of Boaz, Alabama (the City) is a chartered municipality organized under the laws of the State of Alabama. The City is governed by a Mayor and a City Council consisting of five members elected to terms of four years. The City complies with accounting principles generally accepted in the United States of America (GAAP). The City's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements.

Accounting principles generally accepted in the United States of America require that the City report the entire reporting entity, which consists of the City (the primary government) and its component units, entities for which the City is considered to be financially accountable. Each component unit of the City is discretely presented in a separate column in the basic financial statements to emphasize the fact that it is legally separate from the City. The discretely presented component units have a September 30 year end.

Discretely Presented Component Units

Boaz City Board of Education – The Boaz City Board of Education's five member governing body is appointed by the City.

Complete financial statements for the Boaz City Board of Education, a discretely presented component unit, may be obtained at the administrative office of the entity.

Government -Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

(Continued)

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government -Wide and Fund Financial Statements (Continued)

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter is excluded from the government-wide financial statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum funds are maintained consistent with legal and managerial requirements. The City of Boaz currently has no fiduciary to report.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental funds are used to account for the City's general governmental activities. Governmental fund financial statements use the *current financial resource measurement focus* and the *modified accrual basis of accounting*. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within forty-five (45) days of the end of the fiscal period. Expenditures generally are recorded when the related fund liability is incurred, as in accrual accounting. However, debt service expenditures are recognized only when payment is due. Certain compensated absences, claims, and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Property taxes, sales and use taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual. Other taxes and receipts become measurable when cash is received by the City and are recognized as revenue at that time. Shared revenues and entitlements are recorded at the time of receipt or earlier if the accrual criteria are met.

Payments in lieu of taxes are revenues from other governmental entities paid in lieu of property taxes.

Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

(Continued)

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The City reports the following major governmental funds:

General Fund - The General Fund accounts for all of the revenues and expenditures of the City, except those which must be accounted for in other funds, and it is the largest and most important accounting activity for the City. General Fund revenues finance all of the current operations of governmental units which basically benefit the citizenry as a whole.

Corrections Fund – The Corrections Fund accounts for the revenues and expenditures related to the municipal court.

Combined Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources and the payment of general long-term debt, including capital lease obligations, principal, interest, and related costs.

The City reports the following major proprietary fund:

Boaz Outlet Center - The Boaz Outlet Center accounts for the activities of the City's lease revenue and maintenance expenses related to the facility management of the Boaz Outlets.

Additionally, the government reports the following fund types:

Special Revenue Funds - A Special Revenue Fund accounts for the proceeds of specific revenue sources (other than those derived from expendable trusts or dedicated for major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action. Special Revenue Funds consist of the various state shared gasoline taxes.

Capital Projects Funds - A Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary and trust funds).

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Auditing Standards Board (GASB).

During the course of normal operations, the City has numerous transactions between funds to provide services, to pay debt, etc. These transactions are generally reflected as operating transfers except for transactions reimbursing a fund for expenditures made by it for the benefit of another fund. These transactions are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund reimbursed. As a general rule, the effects of interfund activity have been eliminated from the government-wide financial statements.

(Continued)

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

In the government-wide financial statements, amounts reported as program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Boaz Outlet Center are rental income from outlet facilities.

Operating expenses for proprietary funds include the administrative expenses and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use unrestricted resources first, then restricted resources as they are needed, except in the case of grant monies which are used for their required purpose.

ASSETS, LIABILITIES, AND NET POSITION

Cash

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Receivables and Payables

All outstanding balances between funds are reported as "due to/from other funds".

All trade and property tax receivables are shown net of an allowance for uncollectibles.

Property Taxes

Property taxes are levied on October 1 for the prior fiscal year beginning October 1, at which time a lien is attached. These taxes are due and payable October 1 and delinquent after December 31 each year after which a penalty and interest are required to be charged. Revenue is recognized in the year when the taxes are levied and collected at the fund level and in the year for which they are levied at the government-wide level. The taxes are collected by the Marshall County tax collector and remitted to the City.

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ASSETS, LIABILITIES, AND NET POSITION (Continued)

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items on both the government-wide and fund financial statements.

Restricted Assets

Cash accounts and other assets restricted for specific purposes are classified as restricted assets on the balance sheet and statement of net position.

Capital Assets

Capital assets of the City, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed, or if inadequate records were available to determine the actual cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of governmental-type activities is not capitalized.

It is the City's policy not to depreciate historical objects and museum exhibits that are held for public exhibition. These objects are maintained by the City at a reasonable level and, if sold, proceeds are used to purchase more historical objects for public display.

Capital assets of the primary government are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and infrastructure	40-60
Building improvements	15-40
Machinery, equipment, and vehicles	5-25
Books	3

Capital assets of the Boaz City Board of Education are defined as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. Depreciation is calculated using the straight-line method over estimated useful lives ranging from 5 to 50 years.

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ASSETS, LIABILITIES, AND NET POSITION (Continued)

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position and/or balance sheet – governmental funds will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has two items that qualifies for reporting in this category. One item is the deferred charges on refundings reported in the government-wide statement of net position. A deferred charge on refunded debt results from the difference in carrying value of the refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The other item that qualifies for reporting in this category is the contributions to the pension plan subsequent to the plan measurement date, and is reported only in the governmental activities statement of net position.

In addition to liabilities, the statement of financial position and/or balance sheet – governmental funds will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has two items that qualifies for reporting in this category. One item, which arises only under a modified accrual basis of accounting, is the unavailable property tax revenue and is reported only in the governmental funds balance sheet. The other item is the excess of actual earnings over projected earnings on pension plan investments and is reported only in the governmental activities statement of net position. The amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Risk Management

The City is exposed to normal business risk in the course of operations. Commercial insurance is purchased by the City to cover any normal, insurable loss up to policy limits. During the past three years, there have been no losses which exceeded insured amounts.

Compensated Absences

Employees can earn vested annual vacation leave based on years of service as follows:

0-2 years	6 days
3-10 years	12 days
11-20 years	18 days
21 years and over	24 days

Unused vacation leave not exceeding one year's annual vacation can be carried over to succeeding years. Excess unused vacation is converted into sick leave. The City has accrued a liability for vacation pay which has been earned but not taken by City employees. Vacation leave that is expected to be liquidated with expendable available resources is reported as an expenditure and a fund liability

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ASSETS, LIABILITIES, AND NET POSITION (Continued)

Compensated Absences (Continued)

of the governmental fund that will pay it. All unused annual leave is accrued when earned by the employees in the government-wide financial statements. Vacation leave that is expected to be liquidated during the next twelve months is considered a current liability on the government-wide financial statements.

Sick leave is earned at the rate of eight hours per month. Sick leave liability has not been accrued because of the uncertainty of the expense during the succeeding years.

Long-Term Obligations

In the government-wide financial statements and proprietary fund, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position. Bond premiums and discounts, as well as gains/losses on refundings, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium, discount, or gains/losses on refundings.

In the fund financial statements, long-term debt is not reported as a liability and governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Pensions

The Employees' Retirement System of Alabama (the Plan) financial statements are prepared using the economic resources measurement focus and accrual basis of accounting. Contributions are recognized as revenues when earned, pursuant to the plan requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Expenses are recognized when the corresponding liability is incurred, regardless of when the payment is made. Investments are reported at fair value. Financial statements are prepared in accordance with the requirements of the Governmental Accounting Standards Board (GASB). Under these requirements, the Plan is considered a component unit of the State of Alabama and is included in the State's Comprehensive Annual Financial Report.

Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ASSETS, LIABILITIES, AND NET POSITION (Continued)

Equity Classifications

Government-Wide statements - Equity is classified as net position and displayed in three components:

- a) Invested in capital assets, net of related debt - consists of capital assets including restricted capital assets, net of accumulated depreciation and outstanding balances of any bonds, mortgages, notes, or other debt attributable to the acquisition, construction, or improvement of those assets.
- b) Restricted net position - consists of net position with constraints placed on the use either by (a) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (b) law through constitutional provisions or enabling legislation.
- c) Unrestricted net position - all other net position that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

Fund equity is reported in the fund financial statements as fund balances. The following classifications of fund balances are reported in the fund financial statements:

- a) Nonspendable - This classification includes amounts that cannot be spent because they are either (1) not in spendable form; or (2) legally or contractually required to be maintained intact.
- b) Restricted - This classification includes amounts that have constraints placed on the use of resources imposed either (1) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (2) by law through constitutional provisions or enabling legislation.
- c) Committed - This classification includes amounts that can only be used for specific purposes. It is the practice of the City to present assets in this classification pursuant to constraints imposed by formal action of the Council before the end of the fiscal year, and require the same level of formal action to remove the constraint. However, no formal policy regarding this action has been approved by the City. No amounts were reported as committed as of September 30, 2015.
- d) Assigned - This classification includes amounts that are intended to be used for specific purposes, but are neither restricted nor committed. It is the practice of the City to allow the City Council to make a determination of the assigned amounts of fund balance, and also to allow the City Council to remove the constraints. Such assignments may not exceed the available (spendable, unrestricted, uncommitted) fund balance in any particular fund. No formal policy regarding the assignment of fund balances to this classification has been approved by the City.

(Continued)

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ASSETS, LIABILITIES, AND NET POSITION (Continued)

Equity Classifications (Continued)

- e) Unassigned - This classification is the residual classification for the general fund, and represents fund balances that have not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund.

For the classification of Governmental Fund balances, the City considers an expenditure to be made from the most restrictive first, when more than one classification is available.

NOTE 2 - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between *fund balances - total governmental funds* and *net position - governmental activities* as reported in the government-wide statement of net position. One element of the reconciliation explains the "long-term liabilities, including bonds payable, that are not due and payable in the current period and, therefore, are not reported in the funds." The details of this difference are as follows:

Bonds and Notes Payable	\$ 6,849,350
Accrued Interest Payable	46,190
Other Post Employment Benefits Payable	76,192
Net Pension Liability	2,853,114
Compensated Absences	<u>124,516</u>
Net adjustment to reduce <i>fund balances - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	<u><u>\$ 9,949,362</u></u>

(Continued)

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 2 - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net change in fund balances - total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this difference are as follows:

Capital Outlay	\$ 379,150
Depreciation Expense	<u>(826,328)</u>
Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	<u>\$ (447,178)</u>

Another element of that reconciliation states that "the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this difference are as follows:

Payment of Debt	\$ 800,000
Bond Defeasement costs	(22,664)
Change in Accrued Interest	4,160
Amortization of original issue discounts and premiums	<u>(4,647)</u>
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	<u>\$ 776,849</u>

(Continued)

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 2 - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

As a result of the timing differences for the collection of revenues, certain revenues are recognized for the City's governmental activities when susceptible to accrual (i.e., when they are "measurable and available"). The details of this difference are as follows:

Accrued property tax	\$ <u>10,000</u>
----------------------	------------------

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available resources. In the statement of activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues. This adjustment is a combination of the following items:

Loss on Disposal of Fixed Assets	\$ (45,800)
Other Post Employment Benefit Obligations	(49,462)
Pension Expense	(228,167)
Compensated Absences	<u>(4,909)</u>
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	<u>\$ (328,338)</u>

NOTE 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY INFORMATION

An annual budget is prepared for the City's general fund and is adopted on the modified accrual basis. All annual appropriations lapse at the fiscal year end. The City is authorized to transfer budget amounts between departments within the general fund; however, any revisions that alter the total appropriations of any fund must be approved by the Council.

(Continued)

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (Continued)

B. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

The City maintains a level of control at the department level. The following departments had expenditures exceeding appropriations as of September 30, 2015.

<u>Fund</u>	<u>Department</u>	<u>Final Budget</u>	<u>Actual</u>	<u>Negative Variance</u>
General	General Government and Administrative	\$ 1,696,600	\$ 2,385,727	\$ (689,127)
	Fire	1,305,800	1,339,707	(33,907)
	Street	1,647,950	1,673,301	(25,351)
	Senior Center	209,350	217,444	(8,094)
	Parks and Recreation	912,850	921,078	(8,228)
	Library	297,650	324,557	(26,907)
	Municipal Court	152,500	156,261	(3,761)
	Capital Outlay	305,000	379,150	(74,150)

The City's general fund total expenditures exceeded total appropriations by \$1,803,869. The City does not adopt a budget for the special revenue, capital project, or debt service funds.

NOTE 4 - DEPOSITS AND INVESTMENTS

At September 30, 2015, the carrying amounts of the City's deposits with three financial institutions were \$1,597,007.

Deposits at year-end were held by financial institutions in the State of Alabama's Security of Alabama Funds Enhancement (SAFE) Program. The SAFE Program was established by the Alabama Legislature and is governed by the provisions contained in the Code of Alabama 1974, Sections 41-14A-1 through 41-14A-14. Under the SAFE Program all public funds are protected through a collateral pool administered by the Alabama State Treasurer's Office. Under this program, financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of a failure of a financial institution, securities pledged by that financial institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation (FDIC). If the securities pledged fail to produce adequate funds, every institution participating in the pool would share the liability for the remaining balance.

(Continued)

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 4 - DEPOSITS AND INVESTMENTS (Continued)

At September 30, 2015, the City had the following investments held by a trustee:

<u>Investment</u>	<u>Fair Value</u>	<u>Weighted Average Maturity (Days)</u>
Federated U.S. Treasury Cash Reserves	695,842	52 days

Interest rate risk - The City manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to less than one year.

Credit risk - State statutes limit the City's investments to U.S. Treasury obligations, State of Alabama and Alabama County obligations, and general obligations of Alabama municipalities. September 30, 2015, the City's investments consisted of Federated U.S. Treasury Cash Reserves Fund. This money market fund seeks current income consistent with stability of principal and liquidity by investing only in a portfolio of short-term U.S. Treasury securities. The Fund seeks to maintain a stable net position value of \$1.00 per share.

Custodial credit risk - This is the risk that in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At September 30, 2015, the City's investments consisted solely of U.S. Treasury Bills held by one financial institution.

NOTE 5 – RECEIVABLES

Receivables at September 30, 2015, consist of the following:

	<u>General Fund</u>	<u>Nonmajor Governmental Funds</u>	<u>Total</u>
Sales Tax	\$ 562,915	\$ -	\$ 562,915
Garbage Collection Fees	37,260	-	37,260
Returned Checks	1,448	200	1,648
Ad Valorem Tax	573,788	-	573,788
Grants	252,994	-	252,994
	<u>\$ 1,428,405</u>	<u>\$ 200</u>	<u>\$ 1,428,605</u>

NOTE 7 - INTERFUND RECEIVABLES AND PAYABLES

The composition of interfund balances as of September 30, 2015, is as follows:

<u>Payable Fund</u>		<u>Receivable Fund</u>	
General Fund	\$ 43,763	Debt Service Fund	\$ 43,763
Corrections Fund	<u>46,080</u>	General Fund	<u>46,080</u>
	<u><u>\$ 89,843</u></u>		<u><u>\$ 89,843</u></u>

Interfund transfers to/from for the year ended September 30, 2015, are as follows:

<u>Transfer From</u>	<u>Transfer To</u>	
General Fund	Debt Service Fund	\$ 1,049,419
Corrections Fund	General Fund	22,000
Nonmajor Funds	General Fund	<u>219,000</u>
		<u><u>\$ 1,290,419</u></u>

Interfund balances are used to: (1) supply funds from a fund that has current resources to a fund that needs current resources and (2) facilitate transactions that are made by one fund for the benefit of more than one fund.

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 8 - SHORT-TERM NOTE PAYABLE

The City of Boaz entered into short-term note payables at the First Bank of Boaz and the People's Independent Bank for the purchase of the Boaz Outlet Center and equipment. The notes bear interest at 3.75%. The notes are payable in one lump sum of outstanding principal and interest on May 12, 2016.

NOTE 9 - LONG-TERM DEBT

The government issues general obligation warrants to provide funds for the acquisition and construction of major capital facilities. General obligation warrants have been issued for general government activities. In addition, general obligation warrants have been issued to refund general obligation warrants.

Changes in long-term obligations for the year ended September 30, 2015, are as follows:

	Interest Rate	Beginning Balance Outstanding	Additions	Reductions	Ending Balance Outstanding	Amounts Due Within One Year
General Obligation Warrants:						
Dated November 1, 2009	3.00 - 4.50%	\$ 2,575,000	\$ -	\$ 120,000	\$ 2,455,000	\$ 125,000
Dated October 1, 2010	2.00 - 2.875%	3,030,000	-	420,000	2,610,000	430,000
Dated June 1, 2012	0.80 - 3.00%	1,345,000	-	80,000	1,265,000	80,000
Dated January 1, 2013	2.00%	745,000	-	180,000	565,000	185,000
Less, Unamortized Bond Discount		(50,296)	-	(4,647)	(45,649)	-

2020	685,000	120,269	805,269
2021 - 2025	1,630,000	401,203	2,031,203
2026 - 2030	1,405,000	144,754	1,549,754
	<u>\$ 6,895,000</u>	<u>\$ 1,330,155</u>	<u>\$ 8,225,155</u>

Interest expense charged to functions of the primary government for the year ended September 30, 2015, totaled \$209,110.

The City utilizes the General Fund and the Debt Service Fund to liquidate the annual principal and interest payments on the outstanding obligations for the Governmental Activities.

NOTE 10 - PENSION PLAN

Plan Description

The Employees' Retirement System of Alabama, an agency multiple-employer plan, was established October 1, 1945 under the provisions of Act 515 of the Legislature of 1945 for the purpose of providing retirement allowances and other specified benefits for state employees, State Police, and on an elective basis, to all cities, counties, towns and quasi-public organizations. The responsibility for the general administration and operation of ERS is vested in its Board of Control. The ERS Board of Control consists of 13 trustees. The Plan is administered by the Retirement Systems of Alabama (RSA). Title 36-Chapter 27 of the Code of Alabama grants the authority to establish and amend the benefit terms to the ERS Board of Control. The Plan issues a publicly available financial report that can be obtained at www.rsa-al.gov.

Benefits Provided

State law establishes retirement benefits as well as death and disability benefits and any ad hoc increase in postretirement benefits for the ERS. Benefits for ERS members vest after 10 years of creditable service. State employees who retire after age 60 with 10 years or more of creditable service or with 25 years of service (regardless of age) are entitled to an annual retirement benefit, payable monthly for life. Local employees who retire after age 60 with 10 years or more of creditable service or with 25 or 30 years of service (regardless of age), depending on the particular entity's election, are entitled to an annual retirement benefit, payable monthly for life. Service and

(Continued)

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 10 - PENSION PLAN (Continued)

Benefits Provided (Continued)

disability retirement benefits are based on a guaranteed minimum or a formula method, with the member receiving payment under the method that yields the highest monthly benefit. Under the formula method, members of the ERS are allowed 2.0125% of their average final compensation (highest 3 of the last 10 years) for each year of service.

Act 377 of the Legislature of 2012 established a new tier of benefits (Tier 2) for members hired on or after January 1, 2013. Tier 2 ERS members are eligible for retirement after age 62 with 10 years or more of creditable service and are entitled to an annual retirement benefit, payable monthly for life. Service and disability retirement benefits are based on a guaranteed minimum or a formula method, with the member receiving payment under the method that yields the highest monthly benefit. Under the formula method, Tier 2 members of the ERS are allowed 1.65% of their average final compensation (highest 5 of the last 10 years) for each year of service.

Members are eligible for disability retirement if they have 10 years of credible service, are currently in-service, and determined by the RSA Medical Board to be permanently incapacitated from further performance of duty. Preretirement death benefits are calculated and paid to the beneficiary on the member's age, service credit, employment status and eligibility for retirement.

Contributions

Covered members of the ERS contributed 5% of earnable compensation to the ERS as required by statute until September 30, 2011. From October 1, 2011, to September 30, 2012, covered members of the ERS were required by statute to contribute 7.25% of earnable compensation. Effective October 1, 2012, covered members of the ERS are required by statute to contribute 7.50% of earnable compensation. Tier 2 covered members of the ERS contribute 6% of earnable compensation to the ERS as required by statute.

The ERS established rates based upon an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance costs of benefits earned by employees during the year, with additional amounts to finance any unfunded accrued liability, the pre-retirement death benefit, and administrative expenses of the Plan. For the year ended September 30, 2015, the City's active employee contribution rate was 5% of covered employee payroll for Tier 1 Employees (6% for Tier 2 Employees), and the City's average contribution rate to fund the normal and accrued liability costs was 3.29% and 7.00%, respectively, of covered employee payroll for Tier 1 Employees [(0.05%) and 7.00%, respectively, for Tier 2 Employees].

The City's contractually required contribution rate for the year ended September 30, 2015 was 10.66% of pensionable pay for Tier 1 employees, and 7.32% for Tier 2 employees. These required contribution rates are based upon the actuarial valuation dated September 30, 2013, a percent of annual pensionable payroll, and actuarially determined as an amount that, when combined with...

NOTE 10 - PENSION PLAN (Continued)

Contributions (Continued)

member contributions, is expected to finance the costs of benefits earned by members during the year, with an additional amount to finance any unfunded accrued liability. Total employer contributions to the pension plan from the City were \$325,057 for the year ended September 30, 2015.

Net Pension Liability

The City's net pension liability was measured as of September 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of September 30, 2013 rolled forward to September 30, 2014 using standard roll-forward techniques as shown the following table:

(a) Total Pension Liability as of September 30, 2013	\$ 13,270,893
(b) Entry Age Normal Cost for October 1, 2013 – September 30, 2014	299,712
(c) Actual Benefit Payments and Refund for October 1, 2013 – September 30, 2014	(766,022)
(d) Total Pension Liability as of September 30, 2014 [(a) x (1.08)] + (b) – [(c) x (1.04)]	\$ 13,877,214

Actuarial Assumptions

The total pension liability in the September 30, 2013 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00%
Salary increases	3.75% - 7.25%
Investment rate of return*	8.00%

*Net of pension plan investment expense

Mortality rates for ERS were based on the RP-2000 Combined Mortality Table Projected with Scale AA to 2015 set forward three years for males and two years for females. The rates of mortality for the period after disability retirement are according to the sex distinct RP-2000 Disability Mortality Table.

The actuarial assumptions used in the September 30, 2013 valuation were based on the results of an investigation of the economic and demographic experience for the ERS based upon participant data as of September 30, 2010. The Board of Control accepted and approved these changes on January 27, 2012, which became effective at the beginning of fiscal year 2012.

(Continued)

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 10 - PENSION PLAN (Continued)

Discount Rate

The discount rate used to measure the total pension liability was the long term rate of return, 8%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the employer contributions will be made in accordance with the funding policy adopted by the ERS Board of Control. Based on those assumptions, components of the pension plan's fiduciary net position were projected to be available to make all projected future benefit payments of current pan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 12 - EMPLOYEE BENEFITS

The City pays for certain health, dental, and life insurance benefits for its employees. All full-time employees are eligible for these benefits. The City pays for 100% of single coverage health and dental benefits and 78% of family coverage health and dental benefits. In addition, the City pays for a \$25,000 life insurance policy for all full-time employees. During the year ended September 30, 2015, the City paid \$828,576 for insurance premiums under the employee benefit program.

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 13 - OTHER POST EMPLOYMENT BENEFITS

Plan Description

The City administers a single-employer defined benefit healthcare plan ("the Retiree Health Plan"). In May 2000, the City adopted a policy regarding postretirement employee benefits. Once employees are fully vested in the City's Retirement Plan and have completed a minimum of twenty-five years of service with the City, the City will pay one hundred percent of the cost of a single individual and seventy percent of family coverage continuing the employees' enrollment in the City's Group Health Insurance Plan that is in effect at the time of retirement for a period of three years or until the employee reaches the age of sixty-five. The Retiree Health Plan does not issue a publicly available financial report.

Funding Policy

In order to receive this postretirement benefit, the employee must remain enrolled in the health insurance plan in effect at the time of retirement. The City contributions are financed on the pay-as-you-go basis. The City made contributions of \$21,085 during 2015 for employees who were retired during the year.

Annual OPEB Cost and Net OPEB Obligation

The City's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution (ARC) of the employer. The City has elected to calculate the ARC and related information using the alternative measurement method permitted by GASB Statement 45 for employers in plans with fewer than one hundred total plan members. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the Board's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the Board's net OPEB obligation for the Retiree Health Plan:

Annual required contribution	\$	-
Adjustment to annual required contribution		
Annual OPEB cost (expense)		30,807
Contributions made		<u>21,085</u>
Decrease in net OPEB Obligation		51,892
Net OPEB obligation - beginning of year		<u>29,520</u>
Net OPEB obligation - end of year	\$	<u><u>81,412</u></u>

(Continued)

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 13 - OTHER POST EMPLOYMENT BENEFITS (Continued)

Funded Status and Funding Progress

As of September 30, 2015, the actuarial liability for benefits is \$81,412, all of which is unfunded.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities benefits.

Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The simplifying assumptions made in the calculation of the accrued liability are as follows:

Health Insurance Premiums - The current year health insurance premiums at the members' current coverage status were used as the basis for calculation of the present value of total benefits to be paid.

Retirement Age for Active Employees - Based on the historical average retirement age for the covered group, active plan members were assumed to retire at age 62.

Marital Status - Marital status of members at the calculation date was assumed to continue throughout retirement.

Turnover - Based on historical turnover rate, the probability of members not remaining employed until the defined retirement age was considered low.

Amortization Period - The remaining amortization period at September 30, 2015 is three years.

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 14 – LEASES

During the year ended September 30, 2015, the City leased real property on a cancelable month-to-month basis, with monthly rental payments ranging from \$400 to \$2,000 at the Boaz Outlet Center. Rental revenues of \$96,365 were collected during the year ended September 30, 2015.

During the year ended September 30, 2015, the City leased real property under noncancelable operating leases, with monthly rental payments ranging from \$600 to \$23,300 and expiration dates through 2018. Rental revenues of \$323,916 were collected during the year ended September 30, 2015.

The cost of leased Buildings, Improvements, and Equipment at the Boaz Outlet Center associated with lease cancelable and noncancelable leases is \$2,874,605 with \$208,266 of accumulated depreciation as of September 30, 2015.

Future minimum lease revenues under these lease agreements are:

<u>Fiscal Years</u> <u>Ending September 30</u>	
2016	\$ 322,800
2017	322,800
2018	<u>80,500</u>
	<u>\$ 726,100</u>

NOTE 15 - CONTINGENT LIABILITIES

Grants - Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

Litigation - In addition to those suits in which claims for liability are adequately covered by insurance, the City is defendant in various suits arising in the normal course of business. Management is unable to predict the outcome of the litigation but believes it has strong grounds upon which to defend these proceedings and will vigorously oppose the asserted claims. Accordingly, no provision for possible loss, if any, is included in the financial statements.

NOTES TO THE FINANCIAL STATEMENTS

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

NOTE 16 - COMMITMENTS

The City acts as guarantee for the Boaz Industrial Development Board on two notes at the First Bank of Boaz and two notes at People's Independent Bank. At September 30, 2015, the balances of the notes were \$324,680 and \$348,231 at First Bank of Boaz and \$324,680 and \$348,231 at People's Independent Bank.

NOTE 17 - ACCOUNTING CHANGES AND ACCOUNTING STANDARDS

In June 2012, the GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27*. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency.

The implementation of Statement No. 68 resulted in the reclassification of beginning net position of the City. The net pension liability and contributions to the pension plan subsequent to the plan measurement date resulted in the adjustment below.

Implementation of GASB 68, Net Pension Liability	\$ (3,259,120)
Contributions to the plan subsequent to the plan measurement date	<u>316,761</u>
	(2,942,359)
Net Position at September 30, 2014, As Originally Stated	<u>9,406,539</u>
Net Position at September 30, 2014, As Restated	<u><u>\$ 6,464,180</u></u>

NOTE 18 - SUBSEQUENT EVENTS

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through August 1, 2016, which is the date the financial statements were available to be issued.

CITY OF BOAZ, ALABAMA

SEPTEMBER 30, 2015

An annual budget is prepared for the City's general fund and adopted on the modified accrual basis. All annual appropriations lapse at fiscal year end. Accounting principles generally accepted in the United States of America require that budget comparisons be presented for special revenue funds if a budget is adopted. Such a presentation has not been made because the City does not adopt budgets for these funds. The Mayor and City Council approve, by ordinance, total general fund budget appropriations only. The City is authorized to transfer budget amounts between departments within any fund; however, any revisions that alter the total appropriations of any fund must be approved by the Council. The did not make any budgetary amendments during the year. Also, there was an unfavorable variance between the budgeted and actual expenditures of approximately \$835,000.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT
AUDITING STANDARDS

Mayor and City Council
City of Boaz
Boaz, Alabama

We have audited, in accordance with auditing standards general accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Boaz, Alabama, as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the City of Boaz, Alabama's basic financial statements, and have issued our report thereon dated August 1, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Boaz, Alabama's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Boaz, Alabama's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Boaz, Alabama's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any

City of Boaz
Boaz, Alabama

deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Boaz, Alabama's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose to this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
