NOTICE

It is the Contractor/Owner's responsibility to dispose of refuse from the job site. The City of Boaz Street Department can furnish you with information on what material is to be disposed of. A site inspection is necessary to approve the setbacks for zoning purposes. All work is subject to inspection. Any work for which an inspection is required that is commenced without inspection, is subject to removal, excavation, demolition, repair or alteration at the Building Inspector's discretion. This permit must be displayed at the job site. This permit is issued subject to the condition that the party receiving the same will fully comply with the City Ordinance as made and provided to regulate the erection, removal, repair and alteration of buildings and structures in the City of Boaz, otherwise this permit shall become void, and the party may be liable to such penalties and fines as may be provided for violation of said ordinance. This permit is valid for six months from date of issuance. Any extension of time must be approved by the Building Inspector. It is understood that any permit will not grant any right or privilege to erect any building or structure or to use any premises herein described for any purpose or in any manner prohibited by the City of Boaz Zoning Ordinance.

I have read the above notice and fully agree to abide by all local codes and ordinances and understand that any violation may result in revocation of this permit, penalties and fines as prescribed by law.

I have also received a copy of the Boaz residential check list and will comply with those requirements.
